“ *Carl and I shared life together in New Castle Pa and other adventures we took together. I loved him as a brother and while some things were "In our wilder days" as he would remind me, we survived to a ripe old age together. I hope to see him in the place God provides for those who love Him.*

“ *My Dad, so many wonderful memories, you were a great father to me and a loving caring person to the people around you. I remember when I was very young you taught me the importance of being patient and kind to the people around me. You never gave up on me
in my younger years when I was always getting in trouble. Thank you for that because your caring saved me. I will never forget and will always cherish every memory of every adventure we had. I am so proud of you and so proud that you are my Father.
I miss you so much.....I will always love you.
Your Son Tim.*
