“ So glad we did get a chance to see Helen at the Barry get-together on 1/13/18. Helen was so happy sharing stories with everyone about the family and about her recent move.

At Helen's request, "Pay it Forward" feed a few hungry families instead, pay a bill for someone having money trouble, or tell others to use their time/money to do something of value for someone in need.

This is such a nice gesture. I plan on taking these words of wisdom to help someone in need.

We will all miss your smile and your joy, but will keep you in our hearts forever.

“ Seems like I've known you forever Helen, although the time has been short. We packed a bunch of fun in these years and the time we spent just recently becomes more precious. Your kindness, your caring, that big smile, we will miss you. Nedra and Jim

“ *The first time I met Granny Helen, I could tell she was fun, loving and loved her family. Even though I don't have lots of memories, the pictures of the family with Granny always depict her enjoying life and enjoying her family. I will miss her, we could talk so easily to each other. Dan and I extend our deepest sympathy to the family. Hugs and Blessings to all of you.*

“ *One of the nicest memories I have of arriving in Jenkintown is meeting my cousin Helen. We were close in age, however, Helen was the reassuring one; always kind and encouraging. Helen had a wonderful way of making others feel good about themselves. I am saddened by her passing but so grateful that we saw each other recently. Please accept my sincere condolences.*

“ *Full of life and never ending energy. If we could have harnessed your energy Aunt Helen we could have powered the world. Some of my deepest belly ache laughter has been with you and the world is a quieter place without you in it. We never failed to have fun, those memories will forever carry forward. Thank you for the love you always showed us, especially the tough love when we needed it most.*

“ To the person who taught me to jitterbug with the doorframe, who heartlessly pointed out the crocodiles under our bed, who teased my hair into boufants as if I needed additional height, who let me listen to her 45 of 16 Tons and What Do You Get...you were my defacto bigger sister for those early years and you will be missed for your big heart and generous laugh.
